

## THE COAST.

## Ballona Harbor Prospects Very Bright.

## THE BLOOD HORSE RACES.

The Governor Appoints Niles Seales as Chief Justice of the Supreme Court.

Associated Press Dispatches to the HERALD.  
SAN FRANCISCO, April 19.—Notwithstanding the contract between the Southern Pacific Company and the Atchison, Topeka and Santa Fe road, whereby the latter are to give three years notice to the Southern Pacific Company of a wish to set aside their agreement, it is currently believed that the Atchison managers are interested financially in the Ballona harbor scheme, and that they expect to utilize that port from which to ship freight to this city. It is claimed that a line of steamers put on between Ballona and this city, in competition with the Pacific Coast Steamship Company, would not be a violation of the contract.

## THE TURF.

## A Lively Day's Sport for the Blood-Horse Association.

SAN FRANCISCO, April 19.—The second day's racing of the Blood-Horse Association opened with a cold, windy morning. Before the first race came off a light shower set in which lasted only a few minutes. The attendance was somewhat smaller than on Saturday last. Betting was lively. For the first race, mile and sixteenth dash, there were seven starters. Haggin's Rosalind was a decided favorite, Argo being second choice. There was a long delay before they got off to a good start. Adelito took the lead at once, closely pressed by Rosalind and Argo. There was no change in their positions until the home stretch was reached, when Adelito fell back, beaten. Rosalind then assumed the lead, and although Duffy on Argo made a gallant bid for it, he could never reach it, Rosalind winning handsily by a length. Argo second, Nelson third. Time, 1:49.

The second race was for the purse; distance five furlongs; for 2-year-old fillies. It had twelve starters. There was another tedious delay at the post, fully an hour being consumed before they got off. A fair start was finally effected, Carmen, Serpolette and Reparto being in front. They were well together when the three-quarter post was reached, when Yum Yum (the favorite) moved up with the leaders. Coming down the stretch, Snowdrop moved up, and was ahead the last furlong. A desperate finish Yum Yum and Snowdrop then ensued, the latter winning by a head; Yum Yum second, Cleo third. Time, 1:43.

Third race.—Ocean stakes—for three-year-olds; one mile and three-eighths. It brought out five starters—Adeline, Del Norte, and Not Idle were scratched. Robson was the hot favorite, Todd second choice. Or was first away to a capital start. Passing the stand, Robson was slightly behind, Todd second, Molesto third, Shasta fourth, Oro last. This order was maintained to the three-quarter post, when the leaders were all in a bunch. Coming down the stretch there was a driving finish, Shasta winning by a neck. Robson second, Todd third. Time, 2:26.

The last race—Selling purse—one mile, for all ages, was won easily by Nimrod. Tom, Atchison second and Leap Year third. Time, 1:44.

## Judge Niles Seales Appointed Chief Justice.

SACRAMENTO, April 19.—The Governor today appointed Judge Niles Seales, Chief Justice of the State Supreme Court, vice R. F. Morrison, deceased.

## The Ukiah Stage "Held Up."

CLOVERDALE, Cal., April 19.—The Ukiah stage arrived at the usual time today with an account of a robbery that took place two miles this side of Hopland. As the stage neared a well known redwood tree, a man appeared with a barbed wire and a mask. He carried a Winchester rifle and his demand for the Wells-Fargo box was obeyed. Passing the stand, Robson was slightly behind, Todd second, Molesto third, Shasta fourth, Oro last. This order was maintained to the three-quarter post, when the leaders were all in a bunch. Coming down the stretch there was a driving finish, Shasta winning by a neck. Robson second, Todd third. Time, 2:26.

## The Sloop Sadie Wrecked.

SANTA CRUZ, April 19.—Last Sunday forenoon the small sloop Sadie, bound from San Francisco for Santa Cruz, shipped a heavy sea and filled off Point New Years. Soon afterwards the sloop struck the rocks and the keeper of the fog station went out to the rescue, but found only one man on board. Captain Miller, who was thrown upon the rocks, was badly injured. He was recovered and taken to Ancon Island, where he now remains.

## The Canadian Pacific Projects Eastern Excursions.

SAN FRANCISCO, April 19.—Mr. M. Stern, the San Francisco agent of the Canadian Pacific, says that the line which he represents will soon begin to sell round trip excursions from this city to Chicago, St. Paul, St. Louis and other Eastern points. The Canadian Pacific is the first to project Eastern excursions.

## American Legion of Honor.

SAN FRANCISCO, April 19.—The Grand Council of California, of the American Legion of Honor, met in biennial session in the Shields building this morning. Grand Commander James M. Leach presiding.

## Appointment of Mr. Covarrubias.

SACRAMENTO, April 19.—The Governor today appointed N. A. Covarrubias, of Los Angeles, one of the Agricultural Directors for District No. 6—the Los Angeles district.

## The Main.

SAN FRANCISCO, April 19.—Dispatches received to-night report rain falling at Headlands, Red Bluff, Napa, Trinity Centre, Redding, Anderson, Cottonwood, Marysville, Shasta and Petaluma.

## HORSE STEALING APACHES.

## They Go on Another Raid in Arizona.

TECON, A. T., April 19.—A Mexican who has just come from San Pedro, states that on Saturday last, not far from Redington postoffice, Ira Davis saw an Apache Indian in the Potrero carrying a rifle. Davis called to the Indian and the Apache turned and ran. Davis fired three shots at him with a pistol. He then went in company with a companion into the Potrero to follow the Indian, when they saw two more armed Indians, and not knowing how many others there might be concealed in the grass, went back and got a posse of six men to follow them. The posse had just started when the Mexican left Redington, and the result is anxiously awaited. It is believed the Indians are from the reservation and are on a horse-stealing tour. No other theory is tenable, for tame Indians only visit this section when the cactus fruit, wild grapes and nuts are ripe, which is later on by several months.

## THE DIFFERENCE OF RATES.

## The Transcontinental Roads Granted Hearing.

SAN FRANCISCO, April 19.—The comparative freight tariffs of the Southern Pacific Company and the Canadian Pacific Company, printed here, show that owing to the Interstate Commerce law the latter company can make a rate from San Francisco to Chicago and common points much less than the former. The difference in favor of the Canadian Pacific ranges from \$4 to \$188 per carload, according to the class of freight.

## WILL BE HEARD THURSDAY.

WASHINGTON, D. C., April 19.—The Interstate Commerce Commission has decided to hear representatives of the transcontinental railroads on Thursday of this week upon their application for a suspension of the long and short hauls feature of the bill.

## Triumph of the New Opera Troupe.

SAN FRANCISCO, April 19.—The National Opera Company made another triumph to-night, giving a magnificent performance of Aida to a large and fashionable audience. Bertha Pierson, a dramatic soprano, created a frantic furor by her brilliant rendering of the part of the "Aida" and Candelius, the Van Zanten, the contralto, and Whitney, the famous basso, made distinguished successes. After the climax and grand pageant of the second act, the curtain fell, and the audience, after five times, and several times after the Nile scene of the third act. As a spectacle nothing has been seen here to compare with this production.

## The Native Sons.

NEVADA, Cal., April 19.—This afternoon nearly all the delegates of the Grand Parlor availed themselves of an invitation of Hydraulic Parlor to visit the mines in this vicinity. The first one visited was the Manzanita hydraulic mine, where they were shown the principal quartz mines. The Mountaineer, Merrifield and Providence mines were visited, at each of which the visitors were shown every courtesy by the superintendents or others in charge. Many delegates donated suits of miners' clothing and were lowered into the depths to inspect the underground workings.

## Whitney, Spare that Ship.

SAN FRANCISCO, April 19.—The chamber of Commerce today memorialized the Secretary of the Navy not to have the war ship "Hartford" destroyed, but to repair and keep her in service, owing to her historical character.

## A Memorial was also adopted recommending the establishment of a chair of Naval Science at the University of California.

## Scheme for a Canal.

YUMA, April 19.—A scheme has been originated by Mr. G. W. Norton, Civil Engineer, to build a canal fifty miles long and costing a million dollars, to carry water from the Gila and Colorado rivers to irrigate the alluvial lands in this section. Plans have been submitted to a syndicate of capitalists, who have indicated their practicability. The canal will reclaim about 180,000 acres of rich and very productive land.

## Suicide of an Old Citizen.

SAN BERNARDINO, April 19.—Henri Granger, an old citizen of this place committed suicide last night by swallowing strychnine. He was discovered dead in his room at the Levee House this morning. No cause is assigned for the deed but it is supposed that he suffered some loss in recent real estate transactions.

## Weather Probabilities.

SAN FRANCISCO, April 19.—Indications for twenty-four hours commencing at 4 A. M. April 20, California, light rains in Northern portion; fair weather, followed by scattered showers in Southern portion.

## Rain in San Francisco.

SAN FRANCISCO, April 19.—A heavy rain commenced falling at 10 o'clock this morning, and indications are for a continuance.

## WANT THE COMMISSIONS' EAR.

## A Delegation of Prominent Californians Enroute to Washington.

PITTSBURG, Pa., April 19.—A delegation of Californians, composed of Congressman Thompson, and A. J. McPike, and one of the wealthiest merchants on the Pacific coast passed through this city today enroute to Washington. They do not condemn the Interstate Commerce Bill as a whole, but want the ear of the Commission while they protest against California's high rates. On wire, for instance, the rate has been increased from sixty cents to four dollars per hundred pounds, from San Francisco to New York. This, they argue will kill the wine business of California.

## Blaine En Route to St. Louis.

SPRINGFIELD, Mo., April 19.—Hon. Jas. G. Blaine and Mr. R. C. Kerns, of St. Louis, arrived in this city on a Special Train from Ft. Gibson this morning. They remained two hours and then left for St. Louis.

## Accident on the Atlantic Pacific.

ALBUQUERQUE, April 19.—An Atlantic and Pacific west-bound train was derailed at Ashfork yesterday. Engineer Frank, Fireman Martin and Mail Agent Grogan were seriously injured.

## EASTERN.

## Meeting of the Union Pacific Commissioners.

## DEATH OF ALEX. MITCHELL.

General Sherman Offers His Letters for the Logan Book—A Cyclone.

## Associated Press Dispatches to the HERALD.

WASHINGTON, April 19.—The Commission appointed to investigate the accounts of railroads which have received government aid, called at the Interior Department this afternoon and paid their respects to Secretary Lamar. Later in the day the Commission met and elected ex-Governor Pattison, Chairman. Several hours were spent in an examination of the reports and affairs of the Pacific railroads. No general plan of operations was determined upon, but the Commission agreed to meet to-morrow morning and immediately begin work. The selection of a Secretary to the Commission was considered and a suitable person agreed upon. The Commission declined to give the name of the gentleman selected. Several letters have been received from the Pacific Railway officials expressing their willingness to aid the Commission in their investigations.

## Mr. Alexander Mitchell Dead and His Son Ill.

NEW YORK, April 19.—Mr. Alexander Mitchell, of Milwaukee, President of the Milwaukee and St. Paul railroad, died at the Hoffman House at 2:35 this afternoon, of pneumonia. Mr. Mitchell's son, John L. Mitchell, is also ill at the Hoffman House, and likewise suffering from pneumonia. For some time past Mr. Mitchell has been somewhat troubled from the impeded action of his heart. Last Wednesday evening he went out and afterwards had a chill. He caught a severe cold, which developed into bronchitis, pneumonia, and no doubt the result of the cold was the cause of his death. The remains have been embalmed and will be taken to Milwaukee in his private car, leaving the Grand Central depot about 6:30 to-morrow morning and arriving at its destination at 2:30 on Monday. He was a member of the Union Club, and also of the Manhattan Club. Mr. Mitchell was born in Aberdeen, Scotland, in 1818.

## THE ESTATE.

MILWAUKEE, April 19.—The Mitchell estate is variously estimated at from \$15,000,000 to \$25,000,000. He is known to have left a will, which was made three years ago, but B. K. Miller, who drew it up, refuses to divulge its contents.

## LOGAN AND SHERMAN.

## General Sherman Offers all His Letters for the Logan Book.

NEW YORK, April 19.—The following card, published this morning, explains itself: "To the editor of the Herald: I have seen a paragraph which has been given the rounds to the effect that General Logan's papers contain a letter from General Sherman of a compromising nature, which he and his brother, Senator Sherman, had endeavored to suppress. And in your issue to-day I find that one of your Washington correspondents has interviewed the Senator, who treated the whole matter with proper contempt. Now I reaffirm every word my brother is reported to have said. General Logan's friends are at perfect liberty to publish in full any letter I ever wrote to him either private, confidential or official. Further, if Mrs. Logan or John A. Logan, Jr. will send me an accredited agent I will permit him to see and copy all the letters to be published, to have the custody of all men in public station who write private letters as well as public, and in this instance I will withdraw the limitation as to the publication, only suggesting that the letter and its answer be published in an honest manner, and a paragraph here and a paragraph there which is as much a forgery as the raising of a check. W. T. Sherman Fifth Avenue Hotel, N. Y. April 16.

## A CYCLONE.

## The Wind Causes the Loss of Several Lives.

SUFFOLK, Va., April 19.—Last night a cyclone visited this section with fatal and destructive effects. Its track was about 100 yards wide. The house of John Wright, six miles north of Suffolk, was completely demolished. Mr. Wright and his wife and young sister and James Luke were in the house at the time. Mrs. Wright and Mr. Luke were instantly killed. The young girl was fatally injured and Mr. Wright seriously hurt. Much other damage was done to property along the path of the cyclone.

## Earnings Under the Interstate Law.

NEW YORK, April 19.—The earnings of twenty-one roads for the second week in April have been reported. This is the first complete week in which railroads have been operated under the Interstate Commerce law and in which the first unfavorable effects of the law were expected to be known. The total earnings for the second week amounted to \$1,949,911, against \$2,114,703 for the preceding week, a decrease of \$166,392.

## Quite a Difference.

PHILADELPHIA, April 19.—The Pennsylvania railroad officials declare that the report as to the value of goods stolen by the employees of the Panhandle road have been greatly exaggerated. They declare that the total loss will not exceed \$15,000 instead of \$300,000.

## Second Comptroller Appointed.

WASHINGTON, April 19.—The President has appointed Seymour Butler, of Boston, to be Second Comptroller of the Treasury in place of Judge Maynard.

## The Mayflower Race Off.

BOSTON, April 19.—Mr. Burgess the owner of the yacht Mayflower, received a cablegram to-day from Tankerville Chamberlayne, owner of the English yacht Arrow, declining to allow the Mayflower free center-board in the proposed International Race in English waters. The race is therefore off, and the new decline both to cross the Atlantic, and handicap his yacht.

## Decision in the Maxwell Case.

WASHINGTON, April 19.—The Supreme Court has decided the famous Maxwell land grant case, in favor of the Maxwell Land Grant Company, et al., and against the settlers. The grant comprises 1,700,000 acres in Colorado and New Mexico, and is worth not less than five million dollars.

## GUILTY OF MANSLAUGHTER.

## Marguerita Granillo Tried for the Murder of Her Lover.

On the 4th of January last, Marguerita Granillo murdered her lover, Andreas Martinez, at the Shoo Fly saloon, on Los Angeles street, and yesterday she was tried before Judge O'Melveny. It will be remembered that Marguerita at first charged Teresa Pico with the murder. She said that Teresa went into the back room in which she was living, and became angry because Martinez would not give her a glass of wine. Marguerita went out to the bar to get a drink of water, and when she returned Andreas staggered up to her and told her that Teresa had stabbed him. He then went into the back yard, and there ran after Teresa, who was going toward a closet, but the latter managed to elude her, and threw the knife away. This story might have been believed, but Teresa was very drunk and Marguerita's clothes were spotted with blood. Teresa's lover, William Best, next appeared on the scene, and said that the murder had been committed by the man whom he would show to the jury. These stories differing so widely, all three of the parties were held in the prison, but the next day Marguerita confessed that she had done the deed. She said that during a quarrel with Martinez she had stabbed him because he had slapped her and pulled her hair. During the trial yesterday afternoon she appeared to regret the killing of Andreas in rather a pleasant light, for she continually smiled and laughed whenever spoken to on the subject. She admitted the killing, but said she had not intended to do it. Andreas had been slapping her and pulling her hair, and she intended to prick him lightly to make him desist. The jury retired to deliberate at five minutes to 8 o'clock, and a few minutes after 8 o'clock it returned a verdict of "guilty of manslaughter." The woman did not appear to take in the situation any more than she did during the trial.

## "HUMBLED."

## Roland Reed Takes the House by Storm.

Roland Reed opened his season of six nights and Saturday matinee last night at the Grand. His melange of nonsense is called Humbug, and has nothing much of merit in it beyond the ludicrous method in which he and his excellent support handle the flimsy thread of the story. Miss Alice Hawkins acts her affected part very excellently and looks quite attractive on the stage. Miss Bessie Hunter, as Mrs. "Judge Shaw," does the slim part assigned her in good style. Patricia, as "Nessie Shaw," next to Kate, has captured the audience. This young lady, in face and figure, is very pretty on the boards, her manner is full of vivacity and she sings well. In the negro plantation song with Mr. Reed she made a great hit, quite dividing the house with her. The audience was so carried away in this phase of her genuine and rapturous enthusiasm has hardly ever been heard at the Grand. The gallery was particularly enthusiastic in their expression of approval.

## NOT A UNIT.

## The Atchison Will Not Enter the Pooling and Ticket Commissions.

NEW YORK, April 19.—General Passenger agents of Eastern Trunk lines, and Commissioner Pierson have just returned from Chicago, but without having settled the differences between the Eastern and Western lines on the payment of commissions for the sale of passenger tickets. In regard to the relations existing between the Atchison, Topeka and Santa Fe Road and the Eastern Trunk lines, no action has been taken. The Atchison people were in harmony, they said, with the theory of abolition of the payment of commissions to their agents; but they have never signed any agreement. It is now charged that they are still paying commissions, and that their tickets should be ordered off from sale. In consequence the General Agent said yesterday that it did not make much difference whether the trunk lines turned these tickets to the wall or not, inasmuch as they could not sell tickets over the Atchison line, the route they were not handling any tickets of lines forming connecting links between the Western terminal points of the Atchison. The Atchison is the only Transcontinental line that has not entered into the arrangement to abolish commissions, and is the only one with which the trunk lines cannot make any connection.

## Proposed Home for Disabled Volunteers.

NEW YORK, April 19.—The Board of Managers of the National Home for Disabled Volunteer Soldiers met in this city this afternoon. The Board received propositions for the location of the proposed new Home on the Pacific Coast from Napa Valley, Los Angeles and Santa Rosa. The Board will visit California in June for the purpose of selecting a suitable site for a new Home. General W. E. Franklin was elected President.

## The Mayflower Race Off.

BOSTON, April 19.—Mr. Burgess the owner of the yacht Mayflower, received a cablegram to-day from Tankerville Chamberlayne, owner of the English yacht Arrow, declining to allow the Mayflower free center-board in the proposed International Race in English waters. The race is therefore off, and the new decline both to cross the Atlantic, and handicap his yacht.

WASHINGTON, April 19.—The Supreme Court has decided the famous Maxwell land grant case, in favor of the Maxwell Land Grant Company, et al., and against the settlers. The grant comprises 1,700,000 acres in Colorado and New Mexico, and is worth not less than five million dollars.

## THE CONTEST.

## Several Persons on the Stand Yesterday.

## ANOTHER SAVORY WITNESS.

Pedro Garcia Has a Penchant For Garden Hose and Selling His Vote.

## Associated Press Dispatches to the HERALD.

The taking of testimony in the contest of J. D. Lynch vs. General Wm. Vandever was continued yesterday before Captain W. H. Seaman. Pedro Garcia testified that he lived on Buena Vista street. He was born in Los Angeles and voted the Democratic ticket at the last election. A gentleman named Sanchez asked him to vote at the Depot precinct. He received \$2 for his vote from Sanchez on the day of election. The ticket was handed him by Sanchez. One of the Dominguez' had spoken to him and asked him not to come and testify. The Dominguez' who spoke to him was formerly a policeman.

Cross-examined—It was the elder Sanchez who paid him to vote. He did not know what his name was. There was a gentleman who lived up town in the wagon with him. An American was the driver of the wagon. Dominguez went to him and asked him not to testify, the day he had injured his finger, two weeks and a half ago. He was never convicted of petit larceny. He was found guilty of stealing garden hose and sentenced to sixty days in jail, and on another occasion of stealing garden hose and sentenced to ninety days in the county jail.

H. C. Weiner testified that he lived in the Baker block. He voted between 7:30 and 8 o'clock at the White House precinct. Not more than eight or ten were in line at that time. The voting was very slow at the precinct. He saw him six or seven minutes to cast his vote.

Cross-examined. It took him from ten to fifteen minutes to vote from the time he got in line.

S. Arguello testified that he was a police officer. He was present at the White House precinct to vote at half past 9, and to take care of that poll. He had no difficulty in voting, but it took from twenty to twenty-five minutes to vote after he got in line. B. Sepulveda interrupted the voting. He did not obstruct the voting. Saw no unfair conduct on the part of the officers of election. Sepulveda was drunk, and got in line several times, close onto 10 o'clock. Witness only stated until quarter after 11 o'clock. He did not see Biderrain taking men out of the line and talking to them. One of the men was Frank Jackson, or Jefferson. They went across the street to the clothing store. When they came out Biderrain put the man back in the line. John Abbott was there too, and put some men in the line. Biderrain was electioneering for the Democratic ticket. His brother was candidate for Assessor. Two of the men Biderrain pulled out of the line were regular tramps. Did not see them back. About fifty or sixty voters were ahead of witness when he got in line.

Cross-examined. Took Sepulveda out of the line several times. Officer Little put him in line, and when witness testified Sepulveda was in line. When he took Sepulveda out he did not lose his place in line, but went back to it.

H. Marten testified that he had lived here over sixteen years. He voted at the White House precinct, and made three or four visits there during the day. The election was being conducted regularly by the officers. It took him ten minutes to vote after he got in line. Saw no one leaving the line because they could not wait. He saw Biderrain approach an old man who was in the line, take hold of his ticket and look at it, and then he turned him and asked him if that was what he paid him for. Biderrain took the ticket up and took the man away, and afterward brought him back and placed him in line again. Jose Ramirez said he was paid \$5.00 to vote that day. Did not say what he did vote or from whom he got the money.

Cross-examined. Saw the voting place about five minutes at 9 o'clock. The next time I was there was between 11 and 12 o'clock. There were about one dozen in line then. Took me about 15 or 20 minutes to vote. Saw Biderrain approach the old man with a Mexican in line. The old man was a Mexican whom I know by sight.

N. W. Thompson testified that he was a searcher of records. He was in the precinct at the election. The other officers were Frank Marsh, John A. Cline, R. S. Sepulveda, Phil Gaff, and W. H. Cline. Witness was there during the whole day and there was no attempt on the part of the officers to delay the voting. When they first started Sepulveda did not seem to be able to find the names on the register, and he was called out by Stephen White, and P. Gaffey appointed in his place. In the morning some delay was caused by one of the challengers getting in the way. Was told his name was Kalisher. Whenever he wanted to challenge he stepped in front of the man and delayed the whole line. Some parties delayed the line by coming up without their numbers. The polls closed at 4:50 P. M.

## Cross-Examined.

Did not examine the almanac to see what the proper time to close was. Mr. White asked J. C. Cline to step out and let some one else take his place. Mr. Cline was a Republican. The difficulty with Kalisher was early in the morning. Sidney Lacey was there several times and objected because both doors were not open. There was a line all day. Could not see how long the line was. When the polls closed there was some objection, that it was not sundown.

John A. Cline, a taxidermist, testified that he was one of the judges at the White House precinct. Did not see any of the officers attempt to delay voting. The polls opened one hour after sunrise and closed ten minutes to 5 o'clock. The total vote polled was \$27 and \$17 were counted. There were ten votes counted out. There were many more in the box than were registered as cast. Witness had drawn out the ten votes and saw the challengers getting in the way. Challenger Kalisher caused some delay in voting.

Cross-Examined.—Don't remember the name of the Republican challenger. I am a Republican.

Miguel Banegas testified that he was in this city and was at the depot on election day. He was approached by A. Ramirez, who offered him \$5 to

## FOREIGN.

## Parnell Says the Letter is a Forgery.

## EL MAHDI GROWS WRATHY.

Pere Hyacinthe Seriously Ill—The Death of Several Distinguished Men.

## Associated Press Dispatches to the HERALD.

LONDON, April 19.—In the debate on the Coercion bill in the House of Commons last night Parnell stated that the alleged letter, said to have been addressed by him to Patrick Egan, apologizing for having denounced the Phoenix Park murders, was a fabrication all the way through, and that the signature was a forgery. In the Commons this afternoon Mr. Caldwell, a Liberal Unionist, gave notice that he would move for the appointment of a select committee to investigate the charges made by the Times against Parnell and other Irish leaders in connection with the crime in Ireland.

## El Mahdi Wants War.

CAIRO, April 19.—The delegates of the new Mahdi had an audience yesterday with the Khedive to whom they presented letters from the Mahdi to the Khedive, the Queen of England and the Sultan of Turkey. In a letter to the Khedive El Mahdi says: "If you will recognize me as the true Mahdi you will be saved, and we will be friends. Otherwise, I will march forward and the same fatality will overtake you that befel your generals." The Mahdi addresses Queen Victoria as the favorite of her people.

## Seriously Ill.

PARIS, April 19.—Pere Hyacinthe is seriously ill.

## Death of Admiral Bouet.

LONDON, April 19.—The death is announced of Rear Admiral Adolphe Charles Emile Bouet, of the French Navy. He formerly commanded a French Naval station in the Pacific Ocean. He was 80 years old.

## Dead.

CAIRO, April 19.—Cherif Pasha, formerly Prime Minister of Egypt, is dead. He was 69 years of age.

## APPEAL FOR JUSTICE.

## The Pall Mall Gazette on the Parnell Label.

LONDON, April 19.—The Pall Mall Gazette says: "Parnell is an Irishman, therefore the Times is allowed to insult and libel him with impunity. We earnestly appeal to the members of the House of Commons on both sides to do Parnell justice and compel the editor of the Times to the same treatment."

## FINANCE AND TRADE.

## A Review of the Day's Transactions.

NEW YORK, April 19.—The stock market today, except for a short time late in the afternoon, exhibited much less animation than yesterday, and transactions were marked by considerable irregularity, especially early in the day. London was doing almost nothing here, but the market on the other side was higher, as a rule. Until just previous to the close the general list was quiet, and fluctuations were within narrow limits. Kingsland and Pembroke, Fort Worth and Denver, and Manhattan were noted strong stocks, though Fort Worth's strong upon the manipulation of insiders and squeezing short interests. There was a revival of the story of a dividend upon Pacific Mail. The opening was steady, changes from last evening's final figures being for insignificant fractions only. The market was moderately active at generally steady prices, but Pacific Mail was strong and New England weak in early dealings, though the first named broke badly. In the last hour the break in Reading caused a slight decline all around, many stocks closing at record prices, the day market being heavy. Sales, 307,000 shares. Atlantic and Pacific futures declined. The movement in prices were unimportant. Government bonds dull and steady. Petroleum was firm to steady, opening at 63 1/2, highest 63 3/4, lowest 62 3/4, closing 63 1/2. Sales, 945,000 barrels.

## Financial.

The Los Angeles Land Bureau,  
20 West First Street.

THIS MAGNIFICENT PROPERTY IS SITUATED IN ALHAMBRA, SAN GABRIEL VALLEY, NEAR RAYMOND HOTEL AND PASADENA. THE MOST LOVELY PROPERTY ON THE MARKET FOR OCCUPATION OR SPECULATION. A STREET RAILROAD IS BEING CONSTRUCTED THROUGH THE TRACT ON GARFIELD AVENUE TO THE RAYMOND HOTEL.

Water Pipes to pass in front of every lot, with connection taps for every lot. Streets to be put in order. Taxes to be paid to June 30, 1888.

TERMS.--One-third cash, balance in six and twelve months at 8 per cent. interest. The maps and plots at the office for examination. All lots are offered--none reserved. First come first served.

LOS ANGELES LAND BUREAU, GEO. W. FRINK, President, No. 20 West First Street.

## GLADSTONE!

## THE HEART OF THE AZUSA!

LOCATED IN THE MIDST OF THE CHOICEST

### Orange Groves and Vineyards

OF THIS DELIGHTFUL SECTION AND IN THE

### Natural Center for Trade and Travel.

IT POSSESSES THE

### MOST PERFECT CLIMATE

IN SOUTHERN CALIFORNIA,

and commands a view of the entire San Gabriel Valley, one of the grandest in the world. The purchase for the town of Gladstone embraces the property of nineteen different owners, and comprises 525 acres of the most beautiful land that the sun ever shone upon. It will be laid out into business and residence lots, acre lots and five and ten acre tracts, and sold at a fixed schedule of prices, which will be reasonable and liberal. All streets graded, and water, both pure and abundant, piped to every lot.

Citrus avenue is laid out eighty-eight feet wide, with a row of beautiful shade trees in the

center. This grand avenue extends from the mountains on the north to Covina and the mountains on the south, a distance of nine miles. It passes through the center of Gladstone, making lots on that avenue very valuable. A lot near the center of the town is reserved for the First National Bank of Gladstone, and a prominent architect of Los Angeles is now preparing plans for the building, which will be of solid granite.

A NEWSPAPER is to be established at once and additional buildings for stores and shops erected. The founders of Gladstone own extensive marble quarries near at hand from which can be obtained handsome building stone in unlimited quantities and it is expected that marble and granite will be liberally used in the construction of the new business blocks. They also own a Valuable Water Power independent of the Azusa water, having a fall of two hundred feet, which will be used for generating electricity by which the streets of Gladstone will be lighted and by which the street cars will be propelled.

The center of Gladstone is already the established business center for the whole Azusa and is surrounded on all sides by productive land under the highest state of cultivation. Business lots near this center will double in value within a week after the day of sale. The residence

lots are in the midst of beautiful orange, walnut and shade trees, and handsome and stately buildings will soon be erected and occupied.

### HINDA VILLA,

The Commodious

And charming home of Mr. H. Fuller, has been converted into a convenient hotel, where all comers will be entertained at reasonable rates. There is a livery stable connected with the hotel for the accommodation of those who wish to drive about the beautiful Azusa. The lands purchased for Gladstone possess a more valuable water right than those of any part of the State. The source is the San Gabriel river, which is constant in its flow, whether the season is wet or dry. Gladstone, situated at the eastern extremity of the great San Gabriel valley, overlooks a scene surpassing in beauty and variety that commanded by any other point—Duarte, Monrovia, Arcadia, Santa Anita, Sierra Madra, Lamanda Park, Pasadena and the great Raymond Hotel are in full view.

Gladstone is located on the lines of two great transcontinental railways, both of which cross the lands of the company. The Atchison, Topeka and Santa Fe road is already about completed, and the construction parties approaching

from the west and the east will meet on the lands of Gladstone on, or about the first day of sale. The San Gabriel Valley road will run excursion trains out on Thursday, Friday and Saturday, the 21st, 22nd and 23rd inst., landing passengers within a mile of Gladstone, and carriages will be in waiting each day in charge of Mr. Fuller, who will show visitors over the land and return them to the trains without any charge. Trains leave the Downey avenue bridge at 9:30 a. m. each day, and returning leave Gladstone at 3 o'clock p. m., and arrive at Los Angeles at 4:20 p. m.

All of the numerous offers for lots and lands in Gladstone already received have been refused and will be steadily refused until the day of sale, when all shall have a fair and equal chance to purchase at the schedule price. The terms of sale will be 10 per cent. when selections are made, enough to make one-third payment within ten days and the balance in six and twelve months. The sale will take place on the grounds at Gladstone on

**SATURDAY, THE 23d, INSTANT,**  
at 10 o'clock a. m. Free lunch to all who come.

Take the train for Gladstone and see the most beautiful part of Southern California.

Address all Inquiries to the

Gladstone Improvement Company,

Or see Mr. H. FULLER, at Hinda Villa, on the ground.

## Public Opinion.

Good faith is an indispensable requisite to mutual confidence. If it comes to be generally understood that there is no sacredness in a contract which labor organizations esteem it a duty to observe, and that an agreement is liable to be broken by a labor disturbance anywhere within fifty miles or so, it will be inferred that it is scarcely worth while to enter upon negotiations and to make concessions to secure results which are so fleeting and precarious.—[Boston Journal, Rep.]

The New York Herald says: "When Matthew Arnold declared some months ago that the people of our Southern States were not in sympathy with Irish home rule he fell into an error, which, at least, so far as Virginia goes, is clearly shown in another column. To this the Herald might have added that every American who has the slightest respect for the Constitution of his country and the institutions of the republic, heartily sympathizes with the movement in favor of home rule.—[Atlanta Constitution, Dem.]

It may be depended upon that if President Cleveland is obliged to employ the power of retaliation committed to him, he will do it in such manner as will bring Canada to terms. It will be uncompromising, comprehensive and severe, and will put the complete stop to the course of the Dominion government in resorting to insults toward American citizens for political ends. A great deal depends upon the force of the first rebuke administered by our government, and President Cleveland is right in stating that no individual interests must be thought of for an instant when the government is called upon to defend the nation's honor.—[Albany Argus, Dem.]

The free trade idea is to put all people on the same level. Let the Canadian fishermen sell his fish in American ports on the same terms as Americans. Let European manufacturers employ their cheap labor and send the product to the United States, where it shall be placed in the market and sold on the same terms as American products are sold. The result would be comparative prosperity for these countries thus provided with a market for their products; but what would be the effect upon American industries? The free traders have no answer for that question. Their view is so broad that it ignores the distasteful horizon, but overlooks objects nearer home.—[San Francisco Call, (Rep.)]

As to the policy of the Church under the new law, it is indicated in two sentences of the epistle: "Understanding fully, therefore, all the consequences that who do so have generally resolved to take the oath, rather than to be the victims of political demagogues. But this willingness does not divest the oath of its enormity or unconstitutional character." The plain inference is, that the saints who take such an oath under pressure are not morally bound to live up to it. Perjury committed in a holy cause, and under duress, is a venial sin. We may therefore expect to see the mass of the Mormons take the test oath, and break it whenever they think they can do so with impunity.—[New York Mail and Express, Dem.]

## THE BEST

Hair restorative in the world is HALL'S HAIR RENEWER. It cures all diseases of the scalp, and stimulates the hair glands to healthy action. It stops the falling of the hair; prevents its turning gray; cures baldness, and restores youthful color and freshness of appearance to heads already white with age. The following are a few illustrations of what is done by

## HALL'S Vegetable Sicilian HAIR RENEWER.

223 Mrs. HENSHAW, 214 Franklin Ave., Brooklyn, N. Y., after a severe attack of Erysipelas in the head, found her hair—already gray—falling out, and she was left bald. One bottle of HALL'S HAIR RENEWER brought it back as soft, brown and thick as when she was a girl.

224 Mr. KESLING, an old farmer, near Warrenton, Ind., had scarcely any hair left, and what little there was of it had become white. One bottle of HALL'S HAIR RENEWER stopped its falling out, and gave him a thick, luxuriant growth of hair, as brown and glossy as when he was young.

225 Mrs. A. T. WALL, Greenfield, Chester, Eng., writes: "I have found the greatest benefit from the use of HALL'S HAIR RENEWER. It has restored my hair, which was rapidly falling out, and returned its original color."

226 Dr. EMIL SEIP, Detroit, Mich., certifies that "HALL'S HAIR RENEWER is a perfect hair growing, and gives back the natural color to faded and gray hair."

227 Mrs. S. E. EMMETT, Glenville, N. Y., says: "One bottle of HALL'S HAIR RENEWER restored my hair to its natural, youthful color."

No injurious substances enter into the composition of HALL'S HAIR RENEWER, and it is not a dye. Its vegetable ingredients render it the highest degree beneficial to the scalp as a preventive of disease, and it cures itching humors, itching, and it does not make the hair dry and brassy, like the so-called restoratives compounded with alcohol.

## Buckingham's Dye FOR THE WHISKERS

Is, in four respects, superior to all others. 1st—It will produce a rich, natural color, brown or black, as desired. 2d—The color so produced is permanent, and does not fade or run out in any way. 3d—It is a single preparation, and more convenient of application than any other hair or whisker dye. 4th—It contains no deleterious ingredients, as do many preparations offered for like use.

PREPARED BY R. P. HALL & CO., Nashua, N. H. Sold by all Dealers in Medicines.

## NOTICE OF SALE OF REAL ESTATE

UNDER EXECUTION—W. J. LYONS, Plaintiff, vs. J. P. Jones, defendant. Sheriff's Sale, No. 54.

BY virtue of an execution issued out of the Superior Court of the county of San Diego, state of California, in and to the said J. P. Jones was plaintiff and J. P. Jones was defendant, upon a judgment rendered the 24th day of January, A. D. 1887, for the sum of \$8000 in lawful money of the United States, besides costs and interest, I have this day levied upon all the right, title, claim and interest of said defendant, J. P. Jones, of, in and to the following described real estate, situate, lying and being in the county of Los Angeles, State of California, standing of record in the office of the County Recorder of said county in the name of said defendant, and bounded and described as follows, to-wit:

So much of the Rancho San Vicente, or San Vicente y Santa Monica, conveyed by J. S. Baker to J. P. Jones, December 24, 1874, and a conveyance of which is recorded in Book 22 of Deeds, at page 496, in the Recorder's Office of Los Angeles County, as is included within the following boundaries: A small unincorporated partially dismantled railroad station-house adjoining and north of the railroad track of the Los Angeles & San Bernardino Railroad, and about three miles easterly, more or less, from the beach at Redondo Beach, and about three miles northerly to a point one hundred feet from the northerly side of said railroad track; thence westerly parallel with said railroad track and about one hundred feet from the northerly side thereof, eighty (80) rods; thence easterly at right angles eighty (80) rods; thence southerly at right angles eighty rods to the place of beginning, containing within said boundaries six hundred and forty (640) acres, more or less.

Public notice is hereby given that I will, on SATURDAY, the 7th day of May, A. D. 1887, at 12 o'clock M. of that day, in front of the courthouse door of the county of Los Angeles, on Spring Street, sell at public auction, for cash in lawful money of the United States, all the right, title, claim and interest of said defendant, J. P. Jones, of, in and to the above described property, or so much thereof as may be necessary to raise sufficient to satisfy said judgment, with interest and costs, etc., to the highest and best bidder.

Dated this 13th day of April, 1887. JAMES C. KAYS, Sheriff of Los Angeles County.

## CATARRH CATARRH DEAFNESS A NEW TREATMENT

A NEW TREATMENT. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the living membrane of the nose and ear. Microscopic research has proved this fact, and it is now made easy to permanently cure this disease of our country in one or two simple applications, made once in two weeks by the patient at home. Cases of twenty years' standing were cured in this city by this remedy (seven years ago) and are cured still. Before this discovery (seven years ago) a daily application was the method, thereby keeping the membrane in a constant state of irritation, forming a nidus for new infection, and as a result of these daily applications, not one permanent cure has ever been made. By special request the discovery of this new treatment, A. H. DIXON & SON of London, England, and Toronto, Canada, will be at the disposal of all sufferers from Catarrh, Deafness, and other ailments. Agents should see them or enclose stamp for circular describing this new treatment. A personal interview is not necessary in order to effect a cure. Consultation free.

# DAILY HERALD.

## A GREAT PROJECT.

Ship and Shore to Come Together in July.

### A MAMMOTH NAIL FACTORY.

Ballona Harbor to be the Place of Manufacture of Nails, Spikes and Tacks.

A reporter of the HERALD, on learning yesterday that Mr. Frank T. Way, an expert in the art and science of nail-making, was in the city, called on that gentleman at the St. Elmo to learn something about the cost of nail manufacture. Mr. Way is an agent of the great Pacific Nail Works at San Francisco and is well qualified to give all details of nail-making.

Works could be erected on the docks at Ballona with three water fronts and a railway track in the center or on one side of the site as might be needed. This location would save a large item of expense in loading and unloading iron and nails. The Pacific Nail Works make 300 kegs per day and have to move their raw material at least a quarter of a mile at heavy expense, while at Ballona, ship and shore could come together with no expense of land transportation.

The expense estimated by Mr. Way for officers, engineers and artisans would be \$163 per day; coal, thirty tons at \$8 per ton, \$240; forty-two tons of iron at \$12 per ton laid down at Liverpool at \$120, allowing two tons for waste; oil and waste, \$5 per day; 300 kegs at 18 cents, \$54; making \$1056 as the cost of 800 kegs, making the cost per keg at \$1.32 per keg. To this should be added picking and packing 5 cents per keg; cutting the nails, 5 cents per keg; hot plate, 4 cents per keg and waste and insurance, 5 cents, which would make the entire cost on board cars \$1.61 per keg.

The present price of nails is \$3.50 per keg, and varies according to the freights of freight. At the old freight rate the price was \$2.50 per keg, which would make the margin 89 cents per keg or \$712 per day clear profit, while at the present price of rails, \$3.50 per keg the profit per day would be \$800 more or \$1,512 per day clear profit. This is certainly a very fascinating showing that ought to be sufficiently attractive to capitalists to warrant them in putting up a factory at Ballona. These figures of Mr. Way are very carefully prepared, and are also supported by the opinion of Mr. G. F. Clapp, superintendent of the Judson nail factory, at Oakland, Cal.

It should also be stated the power to run the furnace and factory would be ample for the manufacture of tacks and round nails that would yield a greater profit than ordinary nails. The demand for nails in Los Angeles is constantly and rapidly on the increase, and the money sent abroad for this necessary article is simply enormous. Can it not be stopped? The cost of a factory is not very great. The building need be but one story high, while the machinery for nail-making costs now less than half the price in years gone by. An effort will be made to get a site donated by the Los Angeles and Ballona Railway and Improvement Company to a company formed for nail-making at that place. Mr. Way would be happy to give any gentleman further and complete information about the business. He can be found at the St. Elmo, and can give facts and figures as may be needed by any person who wishes to engage in the business. The present is a great opportunity for beginning such an enterprise. Mr. Campbell, the manager of the Ballona Improvement Company, promises to have railway cars and steamships alongside of each other by the middle of July next, so that work could be commenced at once on the factory. The prospect seems most auspicious, and the opportunity should be embraced as soon as possible and practicable.

### CRIMINALITIES.

#### Matters Which Interested Police Circles Yesterday.

John Banks was found guilty yesterday of burglarizing Brown's saloon and was sentenced to two and one-half years in San Quentin by Judge Cheney. Sheriff Kays yesterday received word from Deputy Clarke, who went to Bakerfield to identify three men who had been captured and were supposed to be some of the escapes from the jail. Clarke sent word that the men were not the much desired parties.

Officer P. Riel charged Thomas Rose yesterday morning with grand larceny for attempting to make off with his horse a few hours before. Justice Austin held Rose to answer in \$100 bail. Justice Austin yesterday found Max Dorenberg, alias "Bill Stokes," guilty of battering H. A. Goodwin, the cook of L. Klingler's bakery. It appears that Dorenberg entered the kitchen of that establishment yesterday morning and in a dispute or quarrel with a woman, literally covered him with fried and mashed potatoes and struck him about the head. Dorenberg will be sentenced this morning.

#### Mr. J. W. Potts on the Federal Building Site.

EDITOR HERALD:—The question is asked in this morning's paper where shall the new U. S. government building be erected? I would like to suggest the old city plaza for this purpose. That property belongs to the public now, and it could as well as not be donated for the government building site, as it is worthless now as a city park, being too small for that purpose. Any one who is not prejudiced can see, if he will take a view of the whole city, that it is now, and will remain to be, just as central a point as it was when first located by the old Padres, over an hundred years ago. All the street cars from East Los Angeles and West Los Angeles, Boyle Heights and the foothills in the northwest pass or come near this old plaza, and all roads leading into the surrounding settlements center here. So I say to the City Council, offer this plaza as a donation, and three-fourths of the people in this city will endorse your action. Then those who own property in the vicinity should raise \$100,000 more as a donation, and this sum with the amount appropriated by the government would build a structure that we would all be proud of.

#### Held to Answer.

The case of the People vs. Horace Bell, charged with publishing a criminal libel, came up before Justice Austin yesterday. The complaint was made by E. A. Stephens, on account of an abusive paragraph in the *Porcupine* about Stephens. Bell was held to answer in the sum of \$500. It is estimated that the numerous libel suits now commenced in the city will be hereafter commenced in the Bell-Stephens-Thornton-Stephens matter will cost the county in the neighborhood of \$100,000. Can the people afford it?

### TEACHERS' INSTITUTE.

#### Second Day's Proceedings in Sections.

The second day's session of the Teachers' Institute was held yesterday at the Spring street school rooms at 9 o'clock A. M. The Institute was divided into three sections in separate school rooms. The Grammar section was presided over by Fred H. Clark; the Intermediate section by Superintendent Meredith; and the Primary section by Mrs. Garbutt. Each room was crowded, and most of these present took copious notes on the various discussions that followed.

In the Grammar section, C. L. Ennis treated the subject of "Percentage and its Applications." The debate that succeeded his remarks disclosed the fact that considerable variance of opinion existed concerning the advisability of teaching the metaphysical, abstract branches of higher mathematics. Some of the speakers believed that the severe study of complicated problems tended to develop the intellect. Others differed, and thought branches which would be useful in after life should have the preference, and claimed that there were enough of these to fully occupy pupils' attention, and that in supplying them the pupil would develop his mind quite as much as by wasting his time on difficult and probably unnecessary lore.

This topic being disposed of, Prof. Dozier, of the State Normal School, spoke on "The Essentials of Arithmetic Beyond Percentage." He was not in favor of omitting any portion of the arithmetic. The absence of a well-defined method in teaching had more to do in the matter than the difficult character of the branch taught. Many of the advanced rules of arithmetic were forgotten by well educated people, after launching into later life. Perhaps the trouble was that the pupils were to pass from one rule of arithmetic to another without always clearly comprehending the last one. This was wrong. Teachers must advance in mathematics on commencing their profession, for few students ever complete their course with as perfect a knowledge of the subject as their instructor had. In teaching the principles of cube root, blocks or drawings should always be used. He illustrated his method by drawings. In no other way could the average scholar firmly grasp the principles of the rule. He stated that he never required a pupil to express a rule in the language of the text book. The object was only to have the pupils have a thorough comprehension on the matter taught. After interesting algebraic problems had been explained on the blackboard, a short recess was taken.

E. T. Pierce next made thoughtful remarks on the best method of teaching American history. He believed that it was not so important to have a child remember names and dates as to acquire a taste for historical reading. Pupils in the minor grades should be early attracted to historical reading on American subjects. Boys should know all about Columbus, Washington, Paul Jones and other leaders and heroes. Fortunately a large number of juvenile books are now published, dealing in an attractive manner with the exploits and achievements of the men who founded this republic. Better that boys should be reading such publications as these than the dime novel trash that fills our prisons with early depraved youth. In the study of history in schools, the main events and characters should be brought into prominence, instead of merely following a list of movements, armies, etc., in detail. The colonies should be studied as a whole. The hardships which the fathers of the Republic underwent and the love of liberty they acquired should be impressed upon the youthful mind. Especially should the study of the history of California be given great prominence.

In the intermediate section, C. T. Meredith, Superintendent of Ventura county, spoke on "Fractions and Decimals." L. B. Lawson on "How to Teach Children to Write Well." Miss Rose Davis on "How to Gain Expression in Reading."

In the primary section Miss Jessie Willard with "Number Work for Beginners;" Miss Jessie Frater with "Object Lessons;" Superintendent Meredith explained his method of using the reading chart; Miss Maria Murdoch spoke on "How can we Teach Children How to express themselves?"

The Institute then adjourned to meet in Masonic Hall at 1:30. On re-assembling in a body at Masonic Hall at 1:30, the exercises were opened with some very fine vocal and instrumental music, the singer being Miss Florence Ellis and Miss Emily McMullen, the latter of Santa Monica. A roll-call disclosed only a dozen absentees. The hall was crowded to repletion.

Prof. Henry Ludlam, of the National School of Oratory at Philadelphia, delivered a scholarly address on the culture of voice, gesture, movement and other features of elocution. He especially urged the cultivation of the voice in schools, and gave practical examples of elocution and gesture, brief recitations. He was listened to throughout with the utmost interest.

After a recess, Miss Lottie Clark spoke on the subject of "Music for all Grades." "What shall be done with the pupil who is expelled?" provoked an animated discussion between A. W. Plummer, Miss L. A. Packard, James B. Finch, Mrs. A. L. Armour, H. D. Burnett and Superintendent Meredith.

PROGRAMME FOR TO-DAY. Grammar and Composition—Miss Harriet Duhan, State Normal School.—To what extent shall the text-book be used? How can we secure clearness of expression? Methods of teaching Grammar and Composition.

RECESS—Prof. Dozier. Are Recreations Necessary?—Discussion, introduced by E. T. Pierce.

THE SAN DIEGO PRINTERS' STRIKE.

The status of the strike of the printers of this city, who went out from the *San Union* and *San Diego* offices by order of the Typographical Union, remains as it did yesterday, the publishers still refusing to comply with the demands of the Union and the strikers insisting upon recognition.

The *San* and *San Diego* came out after a fashion yesterday evening, and the *Union* this morning, with such non-union help as they could procure. Both sides appear to have "got their mad up," and the end is yet to be seen. The *San* and *Union* have telegraphed East for men, and advanced their fares.—*San Diego Morning News*.

## THE "WALTER S. MOORE."

Trial of the New Athens Fire Engine.

The new "Athens" engine was tested yesterday afternoon, for the first time since arriving here, and affords much satisfaction to the city officials. The engine comes here from Cincinnati, and is the second one of the kind on the Pacific Coast. They are well and favorably known in Chicago, St. Louis, Cincinnati and other western cities, where they are largely in use.

The time of the trial was set for 3 o'clock, but it was not until 3:45 that she arrived at the Battery water hole, on Alameda street, preceded by the hose cart, and accompanied by a throng of men and boys. In sinking the pump hose into the water, Jim McGuire, one of the assistants, fell into the hole, and splashed around for some time before he reached land. The crowd was much amused, but Jim, escaped with a complete ducking. At precisely 4 o'clock Mayor Workman applied the match to the engine, and Mr. Budd double marked the time. At 4:01 she showed five pounds; 4:02, 10 lbs.; 4:03, 15 lbs.; 4:04, 20 lbs.; 4:05, 30 lbs.; 4:06, 40 lbs.; 4:07, 45 lbs.; and at 4:04, the engine threw a gentle stream out of a 150-foot double line of hose. In ten minutes from this time she was throwing a 100-foot stream, and at the height of her test reached a satisfactory distance. Nearly all of the Fire Commissioners were at the exhibition, and over a hundred spectators. The engine is to be stationed at No. 1 engine house on the plaza. She is unlike other engines in many particulars, having a coil boiler, and a tower of 700 gallons a minute. No kerosene was used in starting the fire, and no other means used to trick the public or Commissioners. She is said to be perfectly satisfactory in every respect.

## ARMY ORDERS.

Headquarters Department of Arizona.

LOS ANGELES, CAL., April 16, 1887.

SPECIAL ORDERS, No. 42.

1. A board of survey to consist of—Major G. E. Glenn, paymaster, First Lieutenant T. S. McCaleb, Ninth infantry.

First Lieutenant C. B. Gatewood, Sixth Cavalry, is appointed to meet at the Army building, at 11 o'clock A. M. on Monday, the 18th inst., or as soon thereafter as practicable, to examine into, and fix the responsibility for the loss of certain clothing and equipment shipped from Fort Verde, and invoiced to Captain J. W. Pullman, Assistant Quartermaster.

2. The commanding officer San Diego Barracks, Cal., will send private B. F. Morrison, Company E, Ninth infantry, an insane soldier, under charge of a non-commissioned officer and one private, to Washington, D. C., for admission to the Government hospital for insane. The non-commissioned officer will report to the Adjutant General of the Army, by telegraph, at least twenty-four hours in advance of his arrival at Washington, the probable hour thereof, and the railroad depot at which he will arrive. After leaving Private Morrison at the asylum, the non-commissioned officer will report to the Adjutant General of the Army for further instructions.

The post commander will cause the necessary papers to be forwarded, in compliance with paragraphs 840 and 843 of the Regulations, and, as therein contemplated, will detail for this important escort duty only trustworthy, meritorious soldiers.

The Quartermaster's Department will furnish the necessary transportation, and the Subsistence Department commutation of rations, in advance, at the prescribed rate, for the necessary number of days, it being impracticable to carry rations of any kind.

By command of Brigadier-General Miles.

Assistant Adjutant-General.

## BALLONA HARBOR NEWS.

The Great Work Being Done at This Place.

Mr. James Campbell, manager of the Ballona Harbor Improvement Company, has returned from San Francisco with a record of large negotiations for the permanent improvement of Ballona Harbor. He purchased the cargo of the schooner Gem, consisting of railway lumber and building materials that has now arrived at Port Ballona.

He also is loading the ship, Jeremiah Thompson, with one million feet of lumber for Port Discovery for Ballona. Mr. Campbell has also contracted for 60,000 railway ties to be delivered by steam schooners in July and August next at Ballona.

This is in addition to the ties contracted for May and June delivery, by the same line of transportation for the Ballona railroad. He also purchased the steam tug Jennie Garmon, now being built to be finished by the middle of July next. The track to Los Angeles city limits is to be completed by the first of July, and at that time the Atchison, Topeka and Santa Fe Company promise to have a track from their present terminus at Mission street bridge down to the city limits to connect with the Ballona railway.

The old dredger now in use at Ballona is not powerful enough for deep dredging and a new one is being made that will dredge to a depth of thirty feet. Large vessels will be in the harbor inside of sixty days and tugs inside in thirty days or less. The Gem is stopping at waypoints on the way to Ballona, gathering valuable information as to depth of harbors and force of swell.

Mr. Campbell has provided for everything for opening the harbor in good shape. He has entered into contract for lumber, vessels and other necessary things for the new port that amounts to over \$100,000, and more is to follow.

## HOWARD &amp; LYONS'

Oceanside Special.

"When Monks and Missions held the sole command. Of all that shore beside the peaceful sea, Where spring-tides beat their long drawn revelle, Out of the Mission of San Luis Rey, Rode Frar Pedro, in a pious way, He saw the glebe land guileless of a furrow; He saw the wild oats rustle on the hill; He saw the gopher working in his burrow; He saw the squirrel scampering at his will."

That was a hundred years ago, and then, as now, San Luis Rey, or as we now call it, Oceanside, was one of the loveliest of the favored spots of earth.

Those old Jesuit Fathers were, in their pious way, real estate sharps. There is not a great and growing city in California but was, in the last century, the site of a Jesuit Mission; and wherever you encounter an old adobe building in the form of a cross, you may look for mellow soil, sunny exposure, panoramic view, and a locality where the currents of commerce must sooner or later converge.

The California Southern road runs through Oceanside; the San Diego Central Railroad Company has its surveyors now in the field, and the line will be run through El Cajon, Poway, San Bernardino and Escondido to Oceanside. The Southern Pacific, which is coming from Santa Ana down to San Diego, cannot escape passing through Oceanside; and every traveler over the Atchison, Topeka and Santa Fe railroad and the Southern Pacific railroad and the San Diego Central railroad who looks out of the car window at the hillside sloping to the sea, and beholds them covered with vineyards and cornfields, kept green without irrigation, and then looks at the ocean to the southwestward, with its shore fringed with white lace and its blue sparkling to the horizon, will say: "This is the loveliest spot on earth!"

This is the place I long have sought, And mourned because I found it not. The country tributary to Oceanside will, as a mere commercial fact, build up there the largest trading center between San Diego and Los Angeles.

There is plenty of scope there for a town of ten or fifteen thousand people, without taking anything from either of the former cities. The whole coast from Los Angeles to San Diego will, in five years, be a succession of gardens and villas equal to the Mediterranean coast from Nice to Genoa. These people now upon the ground have a chance to buy, for a few hundred dollars, lots that will in a few years command fancy prices. And the growth of Oceanside as a trade center is the smallest part of it. As a business proposition olives and grapes can be grown at a large profit anywhere along the coast between here and the Santa Margarita Cañon, without irrigation after the first year, but if every olive and every raisin cost three times its value to grow it, it would make no difference in the value of Oceanside lots, for the town does not depend upon its commercial future alone. It has climate and ocean view to sell, and though you can get plenty of climate, the number of sites commanding an ocean view in San Diego county is not so great. They will all be appropriated from first hands within a year or so, and those who buy them at second or third hands will have to pay long prices for them. And those prices will be paid. If a tenderfoot is intending to build a ten or a twenty thousand dollar villa, do you suppose he will stop half an hour between paying three or four thousand dollars for a lot with an ocean view and paying as many hundred for a lot without one? We know not to nothing, we old Californians, about the laws that govern real estate values. One year before Long Branch became fashionable one could have bought a beach lot for a hundred dollars which two years afterward commanded fifteen thousand dollars. Fashion appreciates the value of watering-place real estate as well as that of Worth's bodices and Poole's pantaloons, and this section of country is becoming fashionable. The vanguard, the pioneers of the coming army, are beginning to flutter their steel-pen coats and sparkle their ten-carat diamonds about our hotel corridors. Wait another year or two until the society leaders of New York and Chicago, and Boston and Baltimore, instead of encountering a winter trip across the Atlantic to reach Naples or Nice, conclude to build up a winter city on this coast, which can be reached in five or six days by a comfortable Pullman. You will see values jump like Comstock shares when Simon says wigwag on California street.

Go to Oceanside next Saturday the 23d, and take with you all the cash you can raise and buy at the auction, and keep buying until your money and credit are both exhausted. It will not be possible for you to make a mistake, no matter what price you pay. We have the property for sale, and it will be sold without reserve. Not that the owner is unmindful of its value and of the great advance in its value which must take place. But he bought it partly on credit, and the time of payment has come, and it must be sold. He will make plenty of money on his investment at the prices the lots will sell for, and you who buy and hold for a year, will make proportionately more than he will. We will make our commission, and when you come to sell the lots you will remember us with gratitude for calling your attention to this chance, and you will put them in our hands again for sale and we will sell them for five or ten times as much as you pay for them, and make commissions again.

We have some pieces of real estate now in our office that we have sold three times already within the last eight months, and each time at a big advance. Go to Oceanside on Saturday, the 23rd day of April, and buy one or more lots on which you will treble your money within a year, or on which, if you buy to build, you will be able to put up a cottage from the front windows of which you can behold a panorama of shore, of cloud palaces and white-winged ships, such as can be seen nowhere else in this land.

## STRAYED GIRLS.

**A Subject that Should be Seriously Considered.**  
Below is a letter from Mrs. Watson, which is worthy of the careful consideration of the people of this city. Some provision should be made for a young girl who through the perfidy of some brute in human shape makes a slip. They can be redeemed if the proper effort is made, and if the finger of scorn will relax its rigidity. Mrs. Watson tells of a harrowing case of a young girl only sixteen years of age, who is compelled by her father and brother to lead a life of shame at home, and the girl only sees a life of shame before her if she leaves home.

On last Saturday night two young girls of this city, one the inmate of a family of the highest respectability, and the other living with good, honest parents, left their homes and despite the efforts of the police have not been found. It is very evident that they read the sensation published in some misguided morning papers a few days ago of two young girls who had left their homes and these two maidens thought that they would follow suit. It is a sad case, and one that should be of great concern to the community. It is a sad case, and one that should be of great concern to the community. It is a sad case, and one that should be of great concern to the community.

**AN APPEAL.**  
LOS ANGELES, April 19.  
EDITOR HERALD:—Trusting you will allow this place in the columns of your paper, I pen a line to the public stating the necessities of the hour, and the urgency that demands immediate action. I commenced a work here especially for children, having obtained permission to forward to the Boys and Girls Aid Society, San Francisco, those for which we have no provision here. I am receiving applications from parents and guardians (also girls who are strangers here and need help and protection) to take charge of a class for which there is no home, every door is closed against them. Where shall the young girl go? To whom can she appeal for aid, to assist her to rise above a life of shame. With all the avenues of sin and death that wait to ensnare her, and lead her down, there is no place in our city where welcome is written over the door, to one who would turn from a life worse than death—cast out from society, friendless, what is left for poor, fallen woman? Last week I received notice that two young girls must be looked after or they were lost; yesterday three more such cases were reported to me. I appeal to the Christian public to assist in a work that demands immediate attention. The officers, policemen and judges, are doing all in their power; but, as one of them said to me, you have no home for them, shall we search them out and rescue them, to send them adrift again. My answer is no, it shall not be. This city, famous for its unbounded charity, will surely respond to the appeal for help for these girls. They will not "scurry in well doing," till a home is provided, where every returning wanderer will find a hearty welcome. Very truly,  
Mrs. H. A. Watson.

## News Notes.

The Board of Supervisors met yesterday and spent the day in examining plans for a new Court house.

The Southern Pacific Company have issued orders for the construction of a depot at Rossmore and an additional 1000 feet of side track.

J. L. Ayers, who resides at No. 40, South Spring street, reported the loss of a seal broken by a cat yesterday from a carriage on South Spring street, south of Sixth street.

Frank Allen, fourteen years of age, came here from Riverside yesterday, expecting to meet his uncle, J. C. Powers, but was unable to find him. Frank is stopping with W. C. Wright, at No. 22 Clay street.

Answers have been filed in the cases of A. Weill vs. Leopoldo Lopez and David Caho vs. Jose Maria Echlin, in the U. S. District Court. Those suits were brought to recover possession of lands in Santa Barbara county and the answer of the defendants places the matter fairly before the Court.

The beautiful eighty-acre tract, a portion of Governor Stoneman's ranch, and located near the Raymond hotel, has been mapped off and the lots will be opened to purchasers at the Land Bureau office next Friday. There is no more inviting locality in the county for villa sites than this tract affords. With charming Pasadena on one side, the finest hotel in the country on the other, Alhambra only a few rods away and a street railroad running through it from the latter place to the Arroyo Seco and Pasadena; nestled at the foot of a beautiful spur of hills, and facing some of the grandest peaks of the Sierra Madre, a home in this tract will be something to make life perpetually enjoyable.

**Personal Mention.**  
Dr. Maynard left yesterday evening for San Francisco.

Mrs. T. A. Stombs has just returned home after a year's absence visiting relatives in Ohio and different parts of the Eastern States.

The editorial sanctums, business office and composing rooms of the Tribune will be moved shortly to No. 20 North Spring street.

Judge C. P. Hall, of Calico, is in the city. The Judge is making a deserved success in the silver camp, both in reputation and in silver.

W. H. Norway, the well-known and robust pioneer surveyor, arrived from Prescott, Arizona, yesterday en route to San Francisco. Mr. Norway was evidently "struck it rich."

Justice Wood of the United States Supreme Court, has been spending the winter at the Sierra Madre Villa, for the benefit of his health. He is suffering from chronic diabetes for which no remedy of climate seems to be available. He has started to the mountains but will not be able to attend to his judicial duties for the present if at all in the future.

**Oxymer Club.**  
On last Monday evening there was a meeting of the Oxymer Club at the home of Miss Laux, 833 South Fort street. The subject for the evening, Napoleon, proved a very interesting and profitable one, and good music was rendered by the lady members. The newly elected officers entered upon their duties, and the meeting was a very gratifying one to the club. There were three new names added to the list of membership, Mr. O. Haralson, Mr. J. G. Scarborough, and Mr. F. G. Finlayson.

**A Drunken Arrest.**  
Officers Lindheimer and Moore last night arrested at the Pico House a commercial traveler named Ed. Holmes, who is wanted in San Francisco on a charge of felony. The warrant does not state of what the felony consists, but it is alleged that it is embezzlement. Holmes has been drinking considerably while here, and was charged with being drunk and disorderly, to hold him until he can be sent to San Francisco.

**No Exaggerated Boom—No After Regrets.**  
Buy at your own door the splendid lots of South Los Angeles—2100 in monthly installments. City banks of granite, brick and freestone are convenient. Public schools on the premises. Hulse's store within easy buying distance and Jevne and the Grange salarooms for your groceries. Obtain map from the Southern California Land Company, Baker Block.

**You Will Miss It If You Miss It.**  
**FIRST GRAND EXCURSION**  
To the Foothill Paradise,  
**ONTARIO!**  
Monday, April 25, 1887.  
**\$1.60--ROUND TRIP--\$1.60**

THE CITY OF ONTARIO is known throughout the country as the Model Colony of Southern California. One of the few cities laid on a broad and liberal basis, with wide streets and broad avenues; it is the home of the Orange, Lemon, Lime and Olive. The water supply of the colony is one of the grandest features. It comes from the melted snow on the summit of Old Baldy and adjacent peaks, flowing over the rocky bed of the famous San Antonio Canon. Its educational facilities are first-class, viz: A college, two public schools, churches, good hotels, newspaper, fifteen mercantile and other business houses, and the city is booming. We will place upon the market on Monday, April 25, 1887.

**198—Choice Business and Residence Lots—198**  
In Clubine & Oakley's Subdivision at Ontario.  
A Beautiful Tract of Land lying one-quarter of a mile on the west side of the famous Euclid Avenue, adjoining the new Santa Fe Railroad, and within one minute's walk of the new depot. These lots will be sold on long credit and easy terms, viz: One-third cash, balance in 6, 12 and 18 months, at prices ranging from \$200 to \$475 each. ONTARIO is situated on two lines of railway and a third is rapidly approaching. They have four mail and ten express trains daily, equal to the transportation of many of the famous Euclid Avenue, which extends from the railroad north to the mountains, seven miles in length, is one of the finest boulevards in America. It is 200 feet wide, lined on either side with Australian fern and eucalyptus. Two central rows of fern, palm and pepper trees alternate within the limits of this magnificent drive. It is constructed for two roadways on either side and the center for an electric railway, a part of the material for which is now on the ground. Standing at the Southern end and looking north toward the mountain the view is grand in the extreme. But from the upper end of the avenue looking south, it is sublime, and beyond our pen to describe.

**FIRST GRAND EXCURSION**  
To the Foothill Paradise,  
**ONTARIO!**  
Monday, April 25, 1887.  
**\$1.60--ROUND TRIP--\$1.60**

THE CITY OF ONTARIO is known throughout the country as the Model Colony of Southern California. One of the few cities laid on a broad and liberal basis, with wide streets and broad avenues; it is the home of the Orange, Lemon, Lime and Olive. The water supply of the colony is one of the grandest features. It comes from the melted snow on the summit of Old Baldy and adjacent peaks, flowing over the rocky bed of the famous San Antonio Canon. Its educational facilities are first-class, viz: A college, two public schools, churches, good hotels, newspaper, fifteen mercantile and other business houses, and the city is booming. We will place upon the market on Monday, April 25, 1887.

**198—Choice Business and Residence Lots—198**  
In Clubine & Oakley's Subdivision at Ontario.  
A Beautiful Tract of Land lying one-quarter of a mile on the west side of the famous Euclid Avenue, adjoining the new Santa Fe Railroad, and within one minute's walk of the new depot. These lots will be sold on long credit and easy terms, viz: One-third cash, balance in 6, 12 and 18 months, at prices ranging from \$200 to \$475 each. ONTARIO is situated on two lines of railway and a third is rapidly approaching. They have four mail and ten express trains daily, equal to the transportation of many of the famous Euclid Avenue, which extends from the railroad north to the mountains, seven miles in length, is one of the finest boulevards in America. It is 200 feet wide, lined on either side with Australian fern and eucalyptus. Two central rows of fern, palm and pepper trees alternate within the limits of this magnificent drive. It is constructed for two roadways on either side and the center for an electric railway, a part of the material for which is now on the ground. Standing at the Southern end and looking north toward the mountain the view is grand in the extreme. But from the upper end of the avenue looking south, it is sublime, and beyond our pen to describe.
